

CURRICULUM VITAE

PERSONAL DATA

Tal Shafir, PhD

Research Fellow

The Emily Sagol Creative Arts Therapies Research Center, University of Haifa

Email: tshafir1@univ.haifa.ac.il

Adjunct Research Investigator

Department of Psychiatry, University of Michigan, USA.

Email: gahl@umich.edu

Anat Baniel Method (ABM) Neuromovement practitioner

<https://www.talshafir.com/>

ACADEMIC EDUCATION

- | | |
|-----------|--|
| 1983 | Bachelor of Law (LLB); Hebrew University - Law School, Jerusalem, Israel. |
| 1986 | Diploma; Dance-Movement Therapy; University of Haifa, Haifa, Israel |
| 1994 | M.S. in Kinesiology (Movement science); University of Michigan, Ann Arbor, Michigan |
| 2003 | Ph.D. in Kinesiology (Neurophysiology of Motor Control); University of Michigan, Ann Arbor, Michigan |
| 2001-2006 | Post-Doctoral Fellowship; Center for Human Growth and Development, University of Michigan, Ann Arbor, Michigan |
| 2006-2010 | Post-Doctoral Fellowship; Molecular and Behavioral Neuroscience Institute, University of Michigan, Ann Arbor, Michigan |

MOVEMENT EDUCATION

- | | |
|-----------|---|
| 1974 | Instructor training course in gymnastics; Wingate Institute, Israel |
| 1976-1979 | Dance Teacher certification; Haifa Dance Center, Haifa, Israel |
| 1997 | Personal Trainer certification; ACE (American Council on Exercise) |
| 2017-2019 | Certification Program in Laban Movement Analysis, LIMS® (Laban/Bartenieff Institute of Movement Studies) , New York, USA. |
| 2017-2019 | Anat Baniel Method: Neuromovement practitioner training certification |
| 2019-2020 | Anat Baniel Method: Neuromovement Continuing Education Mastery Program: Children with Special Needs certification. |

- 2020 Anat Baniel Method: Neuromovement Continuing Education Program: [ABMNM-OAHC \(Online At Home Coaching\)](#) Course.
- 2020 Anat Baniel Method: Neuromovement Continuing Education Mastery Program: [Vitality and Anti-Aging](#).
- 2021 Anat Baniel Method: Neuromovement Continuing Education Mastery Program: [Working with High Performers](#).
- 2021 Anat Baniel Method: Neuromovement Continuing education program: Children with Special Needs Prelude.
- 2021 Anat Baniel Method: Neuromovement Continuing education program: From fixing to connecting.
- 2021-present Training with Lior Pessach to become a Feldenkrais practitioner.
- 2022 Two advanced continuing education workshops with Suzi Marks (Anat Baniel method trainer and Feldenkrais practitioner): Foundation workshop; Transitions and the Sensory System Workshop

BUSINESS EDUCATION & EXPERIENCE

- 1982-1984 Law internship in Tel Aviv District Court with Judge Maltz who served later at the Supreme Court (1982-3), and in a law office (Mirkin, 1983-4)
- 2008 - Strategic Planning and Implementation
- Finance for the Nonfinancial Manager
- Management
Executive education programs in Ross School of Business, University of Michigan, Ann Arbor, Michigan
- 2009-2010 Director, Teva North America
- 2013 Directors course
Hamil (המרכז הישראלי לניהול- המי"ל), Tel Aviv, Israel

SCIENTIFIC WORK

- 1993-1994 Research assistant (with Dr. Charls Worringham)
Motor Behavior laboratory, The Division of Kinesiology, University of Michigan, Ann Arbor, Michigan.
Motor control of sequential movements in Parkinson's Disease
- 1994-1998 Research assistant (with Dr. Susan Brown)
Motor Control laboratory, The Division of Kinesiology, University of Michigan, Ann Arbor, Michigan
Effects of auditory cueing on motor control in Parkinson's Disease.

- 1998-1999 Research assistant (with Dr. Rosa Angulo-Barosso)
Motor Development laboratory, The Division of Kinesiology, University of Michigan, Ann Arbor, Michigan
Infants' learning of leg movement patterns
- 2000 Research assistant (with Dr. Dale Ulrich)
Center for Motor Behavior in Down Syndrome, Division of Kinesiology, University of Michigan, Ann Arbor, Michigan
Effects of treadmill training on onset of gait in infants with Down Syndrome.
- 2001-2006 Research (Post-Doctoral) Fellow (with Prof. Betsy Lozoff and Dr. Rosa Angulo-Barosso)
Center for Human Growth and Development, University of Michigan, Ann Arbor, Michigan
Effects of iron deficiency in infancy on brain and behavior.
- 2006-2010 Research (Post-Doctoral) Fellow (with Prof. Jon-Kar Zubieta)
Molecular and Behavioral Neuroscience Institute (MBNI), University of Michigan, Ann Arbor, Michigan
Brain imaging of emotional processing; Movement intervention for depression.
In parallel, I took part in an interdisciplinary study directed by Prof. Twila Tardif at the Center for Human Growth and Development, which looked at
Neurophysiological Correlates of Emotion Regulation in US and Chinese Preschoolers.
- 2010-2012 Research Investigator
Department of Psychiatry, University of Michigan
Brain mechanisms underlying movement-emotion interaction; Motor-based interventions for depression.
- 2012-2017 Assistant Professor
School for Creative Arts Therapies, Faculty of Social Welfare & Health Sciences
University of Haifa, Haifa, Israel.
*Movement-emotion interaction; Perception/expression of emotions from/through body movements and postures (body language);
Automated recognition of whole-body movement characteristics (Laban motor components) using machine learning*
- 2017-present Research Fellow
The Emili Sagol Creative Arts Therapies Research Center, University of Haifa, Haifa, Israel.
*Movement-emotion interaction;
Associations between personality traits and movement patterns;
Automated recognition (using machine learning) of Laban motor components*

MOVEMENT THERAPY AND MOVEMENT TEACHING

- 1979-2000 Fitness, gymnastics, dance and creative movement for children and adults
Various organizations in Israel and in Ann Arbor, Michigan

- 1985-1988 Dance-movement therapy with psychiatric patients, mentally retarded children, hearing impaired children and senior citizens
Shalvata psychiatric hospital and various organizations in Israel
- 1989-1993 Dance-movement therapy and adapted creative movement
Special education classes, Ann Arbor public schools, Ann Arbor, Michigan
- 2004-2005 Several dance therapy sessions at University of Michigan Comprehensive Cancer Center and Cardiovascular Center
- 2019-2020 Neuromovement with children with special needs
Volunteering at Gan Hayeled and Gan Flora, Haifa, Israel
- 2020-present Neuromovement with children with special needs and with adults
Private practice, Haifa, Israel

ACADEMIC TEACHING

- Spring 2001 UM Teaching Fellow
A five weeks training program provided on competitive basis to graduate students with strong potential for teaching. Awarded by the school of graduate studies and the Center for Research on Learning and Teaching, University of Michigan
- Winter 2001 Instructor: MVS/KIN 411: Instrumentation and measurements in motor control and biomechanics
The division of Kinesiology, University of Michigan, Ann Arbor, Michigan
- 2012-2017 4845: Kinesiology
4946: Kinesiology for experienced therapists
4407: Motor Development
4820: Movement and emotion
4011: Quantitative research methods
4203: Basic principles in dance-movement therapy
4840: Dance-movement therapy advanced: Case studies in DMT.
4837: Dance-movement therapy for older adults
School for Creative Arts Therapies, University of Haifa, Haifa, Israel
- 2017-2018 Movement and emotion
The Academic College at Wingate, Netanya, Israel
The Academic College of Society & Arts (ASA), Netanya, Israel
- 2018-2020 Theories and methods in dance-movement therapy
Assessment and Diagnosis in dance-movement therapy
The Academic College of Society & Arts (ASA), Netanya, Israel
- Feb 2020 Environment→Movement→Emotion from a neuroscience perspective
Jan 2021 Invited full day (8 hours) of teaching at:
Jan 2022 [NAAD \(Neuroscience Applied to Architecture Design\) Master 2019/2020](#) program, Universita luav di Venezia, Venice, Italy.

ACADEMIC MENTORING

2000-2012 Mentoring UROP (Undergraduate Research Opportunity Program), MIRT (Minority International Research Training program) and pre-med students
The division of Kinesiology, Center for Human Growth and Development,
Department of Psychiatry, University of Michigan, Ann Arbor, Michigan

MASTERS STUDENTS:

Naama Shaiovitz: The relationship between religiosity level, body image and self-esteem among single women
(Two papers submitted for publication to international journals)

Shir Gilor: Bodily expressions of sadness and happiness.
(Thesis was presented at an international conference; paper in preparation)

Julieta Bluman: Personal movement patterns and their relation to handwriting
(Thesis was presented at an international conference)

Ayelet Meltzer: Perception of emotion from movement: which motor elements are associated with which emotion, and how this perception is related to empathy?
(Thesis was presented at national and international conferences; paper published in *Frontiers in Psychology*)

Hila Kopitz: How dancing affects mood in children age 8-12: impact and implications for different motor elements comprising the dance

Shirly Greenshtein The effect of viewing your negotiation partner's motor behaviour on negotiation.
(Thesis presented at a national conference; paper in preparation)

Tami Seifert The relationship between kinesthetic ability and emotional empathy.
(Thesis was presented at an international conference)

Dorit Guy-Jelinek Associations between personality traits and movement patterns – in progress

PHD STUDENTS:

Naama Spitzer: Examining the Relationship between Care-receivers' Emotion Recognition and Caregivers' Burden among Main Caregivers of Persons with Mild Cognitive Impairment and Early Alzheimer's Disease: Expanding Pearlin's Stress Process Model – in progress
(preliminary study was presented at a national conference; paper published in *Alzheimer Disease & Associated Disorders*)

REVIEW AND EDITORIAL ROLES

- 2006-present Reviewer for the journals:
 Perceptual & Motor Skills
 Journal of Nutrition
 Studies in Education
 Expert Systems With Applications
 The Journal of Sports Medicine and Physical Fitness
 Eating and Weight Disorders – Studies on Anorexia Bulimia and Obesity
 The Arts in Psychotherapy
 Neuropsychoanalysis
 Nessa journal of Neurology and Neurodisorders
 Frontiers Pediatric, section Child Health and Human Development
 Frontiers Human Neuroscience
 Frontiers in Psychology
 Neuroscience Letters
 Journal of Alternative and Complementary Medicine
 Journal of Nonverbal Behavior
 Psychological research
 Frontiers in Computer Science
- 2011-2016 Associate Editor for ‘Academic Journal of Creative Arts Therapies’.
- 2016-2019 Main Associate Editor for the journal: The Academic Journal of Creative Art Therapies
- 2017-2019 Frontiers research topic main editor (by personal invitation) for the topic: “The state of the art in creative arts therapies”
- 2017-present Guest associate editor for ‘Frontiers in Psychology: Clinical and Health Psychology’
- 2021 Reviewer for the EADMT (European Association Dance Movement Therapy) 2022 conference presentations.

CONFERENCE ORGANIZATION

- 1990 Co-chair Israel Conference Day
 Rackham School of Graduate Studies, University of Michigan, Ann Arbor, Michigan
- 1995, 1996, Kinesiology annual research day committee member
 1997 The Division of Kinesiology, University of Michigan, Ann Arbor, Michigan
- 2003-2004 Member in the planning group for University of Michigan Life Science, Values and Society seminar “This is Your Brain on Dance”
 University of Michigan, Ann Arbor, Michigan
- 2011 Conceived, initiated, raised funding for, planned, and organized the symposium: “Motion-Emotion Interaction in Brain and Behavior”
 University of Michigan Depression Center, Ann Arbor, Michigan
- 2015 Participated in the planning of the symposium: “To touch the body of the soul”

The Graduate School of Creative Arts Therapies, University of Haifa, Israel

2016-2017 Member of the scientific committee which organized the international conference: "[Movementis 2017: World Conference on Movement and Cognition](#)", that took place in Oxford University, Oxford, UK in July 2017.

ROLE IN PROFESSIONAL ORGANIZATIONS

2016-present Member of the Research Committee (by personal invitation)
American Dance Therapy Association.

SERVICE

1989-1990 ISFI (Institute for Students and Faculty on Israel) representative
University of Michigan, Ann Arbor, Michigan

1999-2000 Kinesiology Curriculum Advisory committee member
The Division of Kinesiology, University of Michigan, Ann Arbor, Michigan

2009 Provided content regarding exercise and depression for the University of Michigan Depression Center website.
University of Michigan Depression Center, Ann Arbor, Michigan

2013-2014 Organizer and leader of the monthly research meetings
Emili Sagol Creative Arts Therapies Research Center, University of Haifa, Israel

2015 A faculty member providing educational lectures and mentoring PhD students in the German-Israeli collaborative project "Störung/ הפרעה", that united researchers (from Hebrew University, Weizmann Institute, Ben Gurion University, Haifa University, University of Freiburg), dancers, Choreographers, physicians and Parkinson's patients in Israel and Germany to explore the different facets of human movement and what it means to lose control over it. (See <https://hafraah.wordpress.com/people/>)

2015-2017 Member of the Ethics Committee
Faculty of Social Welfare & Health Sciences, University of Haifa, Israel

2016-present Member of the Research Committee (by personal invitation)
American Dance Therapy Association

2019-2020 Volunteer as an ABM: Neuromovement practitioner in "Gan Hayered" and "Gan Flora", treating children with special needs.

RESEARCH GRANTS

1995	Parkinson's Disease Foundation Summer Fellowship <i>Role of Auditory Cueing in Assisting Movement in Parkinson's Disease</i>	\$2,200
------	---	---------

1996	Parkinson's Disease Foundation Summer Fellowship <i>Role of Auditory Cueing in Facilitating Limb-Posture Coordination in Parkinson's Disease</i>	\$2,200
2007	Integrative Medicine Pilot Grant Program, University of Michigan (Co-P.I. with Richard Dopp, M.D.) <i>Neuromuscular Stimulation in Depression: Exercise and Whole Body Vibration Stimulation</i>	\$8,300
2008	Post-doctoral Translational Scholars Program, University of Michigan <i>Performance, Imagery and Observation of Happy Movements as an Intervention for Depression</i>	\$100,000
2009	MICHR Pilot and Collaborative Grant, University of Michigan (Co-P.I. with Richard Dopp, M.D.) <i>Neuromuscular Stimulation in Depression: Exercise and Whole Body Vibration Stimulation</i>	\$24,978
2010	Power Plate International B.V. Vibration plate: <i>Neuromuscular Stimulation in Depression: Exercise and Whole Body Vibration Stimulation</i>	\$9,500
2017	Marian Chase Foundation (Co-PI with Prof. Robyn Flaum Cruz and Rachelle Tsachor) <i>Associations between personality traits and movement patterns</i>	\$8000
2018	Erasmus With Prof. Klaus Gramann from Berlin Institute of Technology <i>Mobility grant for exchange of 1 PhD student and 1 faculty from each country, for collaboration on a research project involving mobile EEG during emotional movements</i>	\$11,886

AWARDS AND HONORS

1993	The Ruth W. Harris Merit Award For academic achievement in graduate studies. Awarded by Kinesiology, University of Michigan
1994, 1996	Rackham Block Grant For academic merit. Awarded by the school of graduate studies, University of Michigan
1999, 2000, 2002,	Rackham Travel Grant To assist students who are delivering papers or posters at international conferences. Awarded by the school of graduate studies, University of Michigan
2010	1st place Trainee Poster Award 21 st Annual Albert J. Silverman Research Conference

Department of Psychiatry, University of Michigan

- 2010 1st prize Postdoctoral Poster Award
A. Alfred Taubman Medical Research Institute and Michigan Institute for Clinical & Health Research (MICHHR) Annual Symposium. University of Michigan
- 2020 Innovation award
In recognition and gratitude for my contributions to the ADTA and the field of dance/movement therapy
Awarded by the American Dance Therapy Association (ADTA)

INVITED PRESENTATIONS

- Imagery and execution of motor performance: a comparison
The Zinman college of Physical Education and Sport Sciences in Wingate Institute, Israel.
June, 1998.
- Creative movement with an object.
PE 336: K-12 Rhythms and Dance, the Division of Kinesiology, University of Michigan, Ann Arbor, Michigan. Winter, 2000 and Fall, 2000.
- Creative movement with objects
Using objects in adapted physical education
Two sessions during the 8th annual Physical Education Workshop, organized as continuing education for physical education teachers by the PE department at the Division of Kinesiology, University of Michigan, Ann Arbor, Michigan. December, 2001.
- New ways for using traditional equipment
11th annual Physical Education Workshop, organized as continuing education for physical education teachers by the PE department at the Division of Kinesiology, University of Michigan, Ann Arbor, Michigan. December, 2004.
- Dance therapy for cancer patients
University of Michigan Comprehensive Cancer Center, Ann Arbor, Michigan. February, 2005.
- Iron deficiency affects Motor development in 9-Month-old infants
Presidential Plenary Session, Pediatric Academic Societies meeting, Washington DC. May, 2005.
- Use of emotional body expressions in medicine
American Medical Student Association annual complimentary and alternative medicine retreat, Wayne State University School of Medicine, Detroit Michigan. March, 2007.
- Research methods in the study of motion-emotion interaction
Dance-movement therapy program, Seminar Hakibbutzim College, Tel Aviv, Israel.
December, 2007.
- Effects of Movement-Emotion Interaction on Brain and Behavior
Graduate School of Creative Art Therapies, University of Haifa, Haifa, Israel. April 2011.

Move Happy and Be Happy: Effects of Dynamic Body Expressions of Emotions on Brain Activation and Affective State.

'Motion-Emotion Interaction in Brain and Behavior' symposium. University of Michigan Depression Center, Ann Arbor, MI, July 2011.

Embodiment of emotions and body language.

Fall 2011 Seminar Series: 'Embodiment and Metaphors in Social Life: Their Influence on Cognition, Affect, and Behavior'. Institute for Social Research, University of Michigan, Ann Arbor, MI

How Your Body affects Your Happiness

TEDx Jaffa, October 2013. (<http://www.youtube.com/watch?v=lijm0ldxgkcE>). (over 307,000 views)

Movement-emotion Interaction and the brain

Neuropsychiatry Lab, The Hebrew University of Jerusalem, January 2014.

Mechanisms underlying movement-emotion interaction and their implications for dance intervention for Parkinson's Disease

BrainLinks-BrainTools: Project Störung, University of Freiburg, February 2015

Everybody can do it: The use of our body to affect our emotions

"Night of the scientists", University of Haifa, September 2015

(<https://www.youtube.com/watch?v=-HBi1ebdhq0>)

In the dance studio with Parkinson's Disease

BrainLinks-BrainTools: Project Störung, University of Freiburg, December 2015

Let's dance: effects of dancing on physical and emotional health

Department of Theater, University of Haifa, March 2016

Movement-emotion interaction

Department of Human Services, University of Haifa, April 2016

When the body meets the soul: movement-emotion interactions and their application in psychotherapy

Shalvata Mental Health Center, Hod Hasharon, Israel, June 2017

Movement-Emotion interaction in Brain and Behavior

Israel Society for Neuroscience annual meeting, December 2017

Measuring brain mechanisms underlying dance-therapy: past & future directions

3ed International Mobile Brain/Body Imaging Conference, Berlin, Germany, July 2018.

Laban and emotional resiliency

Invited webinar presentation as part of the educational international [Laban webinar series](#) organized by [The Inspirees Institute](#) and [Laban/Bartenieff Institute of Movement Studies \(LIMS\)](#), November 2018.

Emotion perception and expression through movement in human-robot interaction

ABC Robotics Initiative Monthly colloquium, Ben-Gurion University, December 2018

Dance-movement therapy research in Israel

Invited oral presentation as Israel's representative in the international panel in the 2019 annual meeting of the American Dance Movement Therapy Association, Miami, Florida, USA, October 2019.

Environment → Movement → Emotion from a neuroscience perspective

Invited full day of teaching at the [NAAD \(Neuroscience Applied to Architecture Design\) Master 2019/2020](#) program, Università Iuav di Venezia, Venice, Italy, February 2020.

Neurophysiological mechanisms underlying movement-emotion interaction

Invited presentation followed by a panel discussion in the "[Embodiment of Emotions](#)" webinar, organized and hosted by Universidad Autónoma de Chile, October 2020.

Emotion recognition from movement using Laban Movement Analysis.

Invited presentation at the "Analysis of Body Motion Behavior Workshop" organized by Prof. Bernhard Seeber for the Collaborative Research Centre SFB 1330 "Hearing Acoustics: Perceptive Principles, Algorithms and Applications" (HAPPAA) group, at Technische Universität München, Munich, Germany, January 2021

Environment → Movement → Emotion from a neuroscience perspective

Invited two days of teaching at the [NAAD \(Neuroscience Applied to Architecture Design\) Master program](#), Università Iuav di Venezia, Venice, Italy, January 2021.

Neurophysiological mechanism underlying emotion regulation through movement and its application in dance-movement therapy using Laban movement analysis.

Invited presentation at the Creative Movement Therapy Association of India 18th Annual International Conference, On line (virtual) December 2021.

Environment → Movement → Emotion from a neuroscience perspective

Invited two days of teaching at the [NAAD \(Neuroscience Applied to Architecture Design\) Master program](#), Università Iuav di Venezia, Venice, Italy, January 2022.

Research of movement-emotion interaction and its application in emotion regulation.

Invited presentation followed by a discussion at the POLYLOGE forum of the German Society for Integrative Body and Exercise Therapy. On line (via Zoom), June 2022.

Using movement to affect emotion during cognitive behavioral therapy.

Invited 6 days workshop to cognitive behavioral therapists from Ulm University, Germany, in which I taught them the Laban motor components associated with the four basic emotions: happiness, sadness, fear and anger, and we explored together motor components associated with several additional emotions. Haifa, Israel, August-September 2022

Shafir, T., Zubieta, J.-K., Wang, H., Persad, C., Smith, Y. Effects of estrogen therapy on fMRI of emotional processing in postmenopausal women. Poster presented at the annual meeting of Society for Neuroscience, San Diego, CA, November, 2007.

Tilbury, D. M., Plunkett, M. J., Felt, B. T., Wang, L., Kaciroti, N., Angulo-Barroso, R., **Shafir, T.**, Tardif, T. Dynamic systems modeling of cortisol response in pre-schoolers using emotion and activity inputs. Talk presented at the IEEE International Conference on Development and Learning, Monterey, CA, August, 2008.

Shafir, T., He, Y., Yi, Y., Angulo-Barroso, R., Miller, A., Olson, S. L., Kaciroti, N., Tardif, T. Children's facial and motor emotional expressions in emotion regulation. Poster presented at the IEEE International Conference on Development and Learning, Monterey, CA, August, 2008.

Grabell, A. S., Olson, S. L., Kessler, D. A., Felt, B. T., Miller, A., **Shafir, T.**, Kaciroti, N., Tardif, T. Neurobiological roots of emotion dysregulation and behavior problems. Poster presented at the annual convention of the Association for Psychological Science, San Francisco, CA, May, 2009.

Kessler, D. A., Nguyen, T. L., Felt, B., Wang, L., Olson, S. L., **Shafir, T.**, Kaciroti, N., and Tardif, T. Inhibitory control is related to cortisol response to a disappointing task in Chinese and American preschoolers. Poster presented at the annual convention of the Association for Psychological Science, San Francisco, CA, May, 2009.

Mickey, B. J., Zhou, Z, Hsu, D. T., Langenecker, S. A., Love, T. M, Peciña M., **Shafir T.**, Hodgkinson C. A., Goldman D., Zubieta J-K. Neural Responses to Affective Stimuli are Modulated by NPY Genotype. Poster Presented at the annual meeting of Society of Biological Psychiatry, New Orleans, LA, May 2010.

Peciña, M., Mickey, B. J., Hsu, D. T., **Shafir T.**, Shen, P. H., Hodgkinson, C. A., Wright, S., Langenecker, S. A., Goldman D., Zubieta J-K. D2/D3 Receptor Polymorphisms Predict Amygdala and Subgenual Cingulate Reactivity to Positive and Negative Emotional Stimuli. Poster Presented at the annual meeting of Society of Biological Psychiatry, New Orleans, LA, May 2010.

Shafir, T., Taylor, S., Langenecker, S., Zubieta. J-K. Move happy and be happy: effects of dynamic body expressions of emotions on brain activation and affective state. Poster presented at the annual meeting of Society for Neuroscience, San Diego, CA, November 2010.

Hsu, D., Mickey, B., Langenecker, S., Heitzeg, M., Love, T., Wang, H., Kennedy, S., Pecina, M., **Shafir, T.**, Hodgkinson, C., Enoch, M. A., Goldman, D., Zubieta, J-K. Blood-Oxygenation-Level Dependent Signal Responses to Emotional Stimuli Depend on Variations in rs110402 within the Corticotropin-Releasing Hormone Receptor Gene. Poster presentation at the annual meeting of the American College of Neuropsychopharmacology (ACNP) Miami Beach, FL December 2010.

Pecina, M., Mickey, B., Wang, H., Love, T., Hong, SP., Langenecker, S., Hsu, D., **Shafir, T.**, Villafuerte, S., Wright, S., Goldman, D., Zubieta, J-K. Dopamine D2 Receptor Polymorphism Modulates Prefrontal Function and Connectivity During Reward and Emotion Processing. Poster presentation at the annual meeting of the American College of Neuropsychopharmacology (ACNP), Miami Beach, FL, December 2010.

Shafir, T., Langenecker, S., Taylor, S., Zubieta, J-K. Effects of Emotional Movements: Executed, Imagined, and Observed, on Brain Activation and Affective State. Poster presented at the annual meeting of the American Dance Therapy association, Minneapolis MN, October 2011.

Hsu, D. T, Mickey B. J, Langenecker S. A, Heitzeg M. M, Love T. M, Wang H, Kennedy S. E, Peciña M, **Shafir T**, Hodgkinson C. A, Enoch M-A, Goldman D, Zubieta J-K. 2011. Variations in the corticotropin-releasing hormone receptor gene (rs110402) influence BOLD signal responses during emotional stimulus processing. Oral presentation at the annual meeting of Society for Neuroscience, Washington, D.C, November 2011.

Shafir, T., and Tsachor R. Collaborative Research: Practical steps for transforming your clinical and educational insights into research through teamwork. Oral presentation at the annual meeting of the American Dance Therapy association, Chicago IL, November 2014.

Shafir, T., and Tsachor R. Something in the Way She Moves... Unique Sets of Movement Characteristics are Associated with and Enhance Specific Emotions. Poster presented at the annual meeting of the International Convention of Psychological Science (ICPS), Amsterdam, The Netherlands. March 2015.

Shaiovitz, N., Lev Wisel, R., **Shafir, T.** Body Image Has No Association with Self-Esteem in Moderately Religious, but Positive Correlation with Self-Esteem in Non-Religious and Very Religious Single Women. Poster presented at the annual meeting of the International Convention of Psychological Science (ICPS), Amsterdam, The Netherlands. March 2015.

Hsu, D., Mickey, B., Langenecker, S., Heitzeg, M., Love, T., Wang, H., Kennedy, S., Pecina, M., **Shafir, T.**, Hodgkinson, C., Enoch, M. A., Goldman, D., Zubieta, J-K. (2015). Allelic variation in the corticotropin-releasing hormone receptor 1 (CRHR1) gene influences fMRI signal responses to emotional stimuli. Society of Biological Psychiatry, Toronto, Canada, May 2015.

Bernstein, R., **Shafir, T.**, Tsachor, R., Studd, K., & Schuster, A. Laban movement analysis using Kinect. Paper accepted to the ICACII 2015: International Conference on Affective Computing and Intelligent Interaction, Paris, France, May 18-19, 2015.

Bernstein R, **Shafir T**, Tsachor R, Studd K, Schuster A. Multitask Learning for LMA. Oral presentation at MOCO'15 – 2nd International Workshop on Movement and Computing Intersecting Art, Meaning, Cognition, Technology. Vancouver, Canada. August 14-15, 2015.

Shafir, T. and Tsachor, R. Developing Movement Biofeedback Technology to supplement DMT. Poster presented at the annual meeting of the American Dance Therapy association, San Diego CA, November 2015.

Tsachor, R. and **Shafir, T.** Body/Mind Connection: Clinical Implications of New Research into Emotion Recognition from Movements, Using Laban Analysis. Workshop presented at the annual meeting of the American Dance Therapy association, San Diego CA, November 2015

Tsachor, R. and **Shafir, T.** Motion/Emotion from Text: Applying Current Emotion Theory & Research to Acting with the Alexander Technique. Oral presentation at the Freedom to Act conference, New York, NY, January 2016

Spitzer, N., **Shafir, T.**, & Werner, P. Emotion recognition from facial and bodily expressions by healthy elderly. Poster presented at the bi-annual conference of Israel Gerontological Society, Tel Aviv, Israel, January 2016

Tsachor, R. and **Shafir, T.** The Italian Dance Manual as a source of Action for Theatre. Poster presented at the Historical Dance Symposium, Burg Rothenfels, Germany, May 2016

Shafir, T and Angulo Barroso, R. Long-term developmental outcomes of former iron deficiency in the motor domain. Oral presentation at the Nutrition and Child Development: Through the Lens of Iron symposium. Ann Arbor, MI, USA, June, 2016

Shafir, T and Tsachor, R. Movement Choices Influence Emotions: Research and Application in DMT. Oral presentation at the European Association Dance Movement Therapy Conference, Milano, Italy, October 2016.

Naor, C., Federman, D., **Shafir, T.**, Gilor, A., Bliman-Bauman, J. and Tsachor, R. Personality traits and their associated movement patterns as depicted by Laban Motor Elements. Poster presented at the annual meeting of the American Dance Therapy association, Washington D.C., November 2016.

Gilor, S., **Shafir, T.**, Federman, D., Bliman-Bauman, J., Naor, C. and Tsachor, R. Motor characteristics of authentic, unrestricted bodily emotional expressions of happiness and sadness. Poster presented at the annual meeting of the International Convention of Psychological Science (ICPS), Vienna, Austria, March 2017.

Tsachor, R and **Shafir, T.** From Movement Analysis to Moving Emotions: Applying the Frontiers of Movement Research to Therapy and Education. Workshop presented at the Moving from Within conference, Ammersee, Germany, June 2017.

Bliman-Bauman, J., **Shafir, T.**, Rosenblum, S., Naor, C., Gilor, S., Federman, D. and Tsachor, R. Relationships between handwriting process and product characteristics and whole-body movement patterns during emotional expressions. Poster presented at the Movementis 2017: World Conference on Movement and Cognition, Oxford, UK, July 2017.

Tsachor, R and **Shafir, T.** Motion/emotion: Integration Science and Awareness in Practice. Oral presentation at the Alexander Technique International Annual Conference, Seattle, WA, USA, October 2017.

Meltzer, A., **Shafir, T.**, and Tsachor, R. Emotion recognition from movement: which Laban components are associated with each emotion? Poster presented at the annual meeting of the American Dance Therapy association, San Antonio, Texas November 2017

Shafir, T. Brain and Behavior in Movement-Emotion Interaction. Oral presentation at the 26th Israel Society for Neuroscience Annual Meeting, Eilat, December 2017.

Cheshin, A. and **Shafir, T.** Is it the Face or the Body: The Effects of Body and Face Emotional Displays on Emotion Recognition and Negotiation. Poster presented at the fourth Israel Organizational Behavior Conference (IOBC), Tel Aviv, Israel, January 2018.

Meltzer, A., **Shafir, T.**, and Tsachor, R. Emotion recognition from movement: Associating specific motor components with basic emotions. Poster presented at the 14th Karniel Computational Motor Control Workshop (KCMCW), Beer-Sheva, Israel, March 2018.

Tsachor, R and **Shafir, T.** An LMA Methodology for statistical analysis of complex movement. Oral presentation at the LABAN 2018 International Conference, New York, NY, USA, May-June 2018.

Shafir, T. and Tsachor, R. Measuring brain mechanisms underlying dance-therapy: past & future directions. Invited oral presentation at the 3ed International Mobile Brain/Body Imaging Conference, Berlin, Germany, July 2018.

Tsachor, R. and **Shafir, T.** Connecting Motion and Emotion: Implications for Alexander Technique of Current Emotion Science. Workshop presented at the 11th International Alexander Technique World Congress, Chicago, IL, USA, July 2018.

Tsachor, R. P. and **Shafir, T.** How the Laban/Bartenieff movement taxonomy supports research and intervention. Oral presentation at Movementis 2019: World Conference on Movement and Cognition, Tel Aviv, Israel, July 2019

Tsachor, R. P. and **Shafir, T.** Grounding Acting in Current Emotion Science. In R. P. Tsachor (Panel Chair), *Intersectional Frontiers in Theatre Movement and the Sciences*. At ATHE 2019. [*ibid.*] Orlando, USA. Aug 2019.
